IN AN EMERGENCY

In case of a fire, medical emergency, or any situation involving immediate danger, call 911 right away. For anything urgent but not life-threatening, such as a lockout or a maintenance issue, contact your host directly so they can help you sort it out.

01

Check-in

1. Your host will send you the specific arrival details and how to get inside ahead of your stay.
2. If you haven't heard from your host or have questions as you arrive, reach out to them directly.

02

WiFi

Your host will provide the WiFi network name and password on arrival. If the signal drops during your stay, try restarting the router, and let your host know if the issue continues.

03

House rules

Treat the space with care and leave it in the condition you found it. Keep noise at a reasonable level, especially in the evening, out of respect for neighbors. Follow any specific guidance your host shares with you about the property.

04

Amenities

Details on specific amenities will come from your host, so check with them if you're wondering whether something is available for your stay.

05

Quirks of the home

Every stay has a few small details that aren't obvious right away. If something about the space surprises you or doesn't behave as expected, your host is the best person to ask for a quick explanation.

06
